## One good stock

It's time to take stock of the pantry and stock up on stock to make those wonderful winter soups, gravies and other great-tasting meals. Swanson has a new line of all-natural, lower-sodium cooking stocks — chicken and beef — made from premium roasted meats, herbs and spices to offer up great, complex flavors to every dish. Look for the reclosable carton (which keeps well inside a refrigerator door) for \$2.99 on your grocer's shelves by the other soup products.
